A TENEMENT-HOUSE FIRE. The Upsetting of a Can of Conl Starts a l'fase.

The upsetting of a can of coal-oil started a fire at 9.45 o'clock this morning on the first floor of the six-story tenement, 36 Chrystie street, in the

apartments of Kate Werner. The cry of fire rang through the crowded building, and in an instant the crowded building, and in an instant the narrow hailways and the fire-escapes were jammed with excited and frightened men, women and children. No one seemed to comprehend the situation, and but few knew where the blaze was, or just what part of the house was in danger. The uncertainty of the situation made matters worse for the people in the upper stories, who hurriedly began piling their things together and getting ready to get out.

The fire was put out without much difficulty. The damage was 550.

Not Being Eligible to Start.

(By Associated Press.)

COWES, Isle of Wight, Aug. 10.—Britannia, Iverna and Viking started at a o'clock this morning in the race for the Meteor Challenge Shield, presented by the German Emperor, the event being open only to all yachts, of any rig, built in Europe and belonging to any rocognised European yacht club exceeding 100 rating. Tighturi, consequently, will not be eligible to take part in this contest.

The course is from Cowes round the Shambles Lightship, off Portland, yachts to pass out by the eastern channel of the Isle of Wight and to return through the western channel, by The Winders to challenge the year after winning it, and the trophy becomes the property of the person winning it twice; three yachts to start or no race.

Britannia won the Emperor's Challenge Shield last year, bedding Mr. A. D. Clarke's Satanita by 66 minutes.

Iverna and Viking to-day were evidently only entered and started in order to enable the event to be sailed, for they soon retired, and Britannia conting. The more continued of the sailed of the saile of the sai
